

# Trials of Europeanization

## *Turkish Political Culture and the European Union*

### Ioannis N. Grigoriadis

This book provides a comprehensive evaluation of the impact of improving EU-Turkey relations on Turkish political culture. It also comprises a succinct overview of Turkey's most reaching reform process since Atatürk.

"How has Turkey become the sui generis secular state we know today? In the debate on whether Islam is soluble in the liberal democratic tradition of the West there is often too much rhetoric and too little substance. This timely and important book remedies this state of affairs and more through a thorough investigation of Turkey's political culture focusing on its state tradition and transformation and their gradual adaptation to EU norms. It is a must read for anyone interested in EU-Turkey affairs, be they advocates or critics of Turkish accession." -- Kalypto Nicolaïdis, Director, European Studies Centre, St Antony's College, University of Oxford & University Lecturer in International Relations

#### CONTENTS

Introduction \* The Historical Background to the Debate on Turkish Political Culture \* Civil Society \* The State \* The Secularism Debate \* Turkish National Identity \* Conclusions: Prospects of Turkish Political Culture
